

Report of: Leeds Anti Social Behaviour Team (Harvinder Saimbhi)

Report to: Outer East Community Committee

Report author: Patrick Bird

Date: 12 March 2019

To note

Leeds Anti Social Behaviour Team Review

Purpose of report

To provide an update to Community Committee's on progress made in reviewing the service currently provided by Leeds Anti-Social Behaviour Team.

Main issues

Consultation has highlighted that current levels of demand use are unsustainable and that an increasing number of individuals interacting with the service – both perpetrators and victims – have very complex needs and vulnerabilities.

- **Revise processes to ensure decision making is based on an effective triage system.**
- **Embed the identification and assessment of risk in procedures from the first point of contact.**
- **Extend and strengthen partnership working.**

Recommendations

To note the report and the direction of travel of the review.
