Report of	Taxi & Private	Hire Licensing	Manager
-----------	----------------	-----------------------	---------

Report to Licensing Committee

Date: 2 July 2019

Subject: Taxi & Private Hire Licensing – Proposed Suitability policy and

update on policy harmonisation with West Yorkshire & York

authorities

Are specific electoral Wards affected? If relevant, name(s) of Ward(s):	☐ Yes	⊠ No
Are there implications for equality and diversity and cohesion and integration?	⊠ Yes	☐ No
Is the decision eligible for Call-In?	☐ Yes	⊠ No
Does the report contain confidential or exempt information?	☐ Yes	⊠ No
If relevant, Access to Information Procedure Rule number:		
Appendix number:		

Summary of main issues

- This report presents to committee members the results of recent consultation in Leeds and neighbouring authorities on taxi and private hire licensing policies, and a proposal for a new Suitability Policy to replace the council's existing Convictions Policy.
- 2 This proposal is part of a broader regional project to reduce the differences between licensing policies and enforcement.
- 3 Between November 2018 and January 2019, four of the five authorities in West Yorkshire and City of York Council have consulted on proposed changes to how applicants' and current licence holders' previous cautions and convictions should be reviewed to consider their suitability to be licensed. The proposals arose from a combined project representing professional bodies in licensing, intended to implement common standards across the UK for how convictions and cautions would be treated by licensing authorities.
- 4 The consultation and engagement has completed, and the different results in the five authorities can be presented to committee, together with recommendations for implementing policies, in Leeds and across the region. The views of

- licensing committee members are sought before the policy is forwarded to the Executive for approval.
- 5 The report also provides an update on the other areas of policy harmonisation across West Yorkshire and York authorities.

Recommendations

- 1. That committee members note the purpose and content of the information in this report.
- That committee members consider the summary of the responses to the consultations, the proposed policy, and the discussion points raised in the report, and note that there may be further guidance being developed as a result of the national consultation on statutory guidance, which included the table of suitability licensing decisions.
- 3. That committee members pay particular attention to the option to separate the extreme violence examples from less extreme violence, with a lower tariff of 5 years, not 10 years.
- 4. That committee members approve the policy to be passed to the Executive Member for Licensing of the new policy on determining the suitability of applicants and licencees as drivers in taxi and private hire licensing, and that this policy take effect from 1 August 2019.
- 5. That the Taxi and Private Hire licensing Manager be authorised to make any further minor changes necessary to the policy, to align the policy as closely as possible with the other West Yorkshire & York Authorities and meet the preferences of committee members, officers and stakeholders in Leeds.

1 Purpose of this report

- 1.1 To inform committee members of the results of a recent consultation in Leeds, and consultations and engagement exercises in neighbouring authorities, about the suitability of people to hold a licence to work as a taxi or private hire driver.
- 1.2 To highlight to committee members of the areas where the council's proposed policy relating to the suitability of licence holders could be revised following the consultation and discussion with the other West Yorkshire and York authorities.
- 1.3 To draw attention to some areas where the council and other licensing authorities, professional bodies have suggested that the suitability policy could be further refined and developed.
- 1.4 To update committee members on the progress made by the West Yorkshire and York authorities on the other areas of harmonisation.

2 Background information

- 2.1 Leeds City Council has responsibility for licensing Hackney Carriage (taxi) vehicles, drivers and proprietors, Private Hire and Executive vehicles, drivers, and operators within the city. The council's primary focus is the safety of the travelling public.
- 2.2 The council has adopted the provisions of the Local Government (Miscellaneous Provisions) Act 1976, which governs the licensing of Private Hire Vehicles, Private Hire Operators and drivers. The adoption of this act also encompasses the adoption of the Town Police Clauses Act 1847, which governs the licensing of Hackney Carriages.
- 2.3 The council's policies and conditions are set and reviewed by the council's Licensing Committee. The council's policies and conditions apply to all drivers, vehicles and operators who hold the relevant licenses issued by the council. The council's Taxi & Private Hire Licensing team are responsible for making decisions relating to the application of the policies and conditions, under the council's scheme of sub-delegation.
- 2.4 Committee members will be aware that the UK taxi and private hire industry is rapidly changing in the UK, although much taxi and private hire law has changed little since the 1970s. In order to continue to keep the travelling public safe, the council's policies and conditions also need to keep pace with new developments, particularly the rise of cross border working (drivers and vehicles licensed in one area and working predominantly in another), the growth in use of smartphone apps enabling customers to book and pay for journeys. The council has a plan to review and consult on each of the specific policies and conditions after either three or five years, to make sure they remain up to date and effective.
- 2.5 Since 2017, officers from the five West Yorkshire Taxi and Private Hire Licensing teams and City of York have worked on the harmonisation project, and the chairs of the Licensing Committees (or equivalents) have met every other month to check progress.
- The focus of the WY&Y officers and members groups has been to maintain and improve passenger safety, particularly in light of the safeguarding scandals in other towns and cities in the UK. Owing to the prevalence of cross-border working, authorities cannot work in isolation. The group have agreed that the collaboration approach would be more effective if the authorities were to undertake a project to align their policies and conditions more closely, establishing minimum standards in common.
 - CCTV in vehicles;
 - Convictions policy;
 - Vehicle specifications;
 - Driver training;
 - Information sharing between authorities; and

Effective cross-border enforcement.

This subject was last reported to Licensing Committee in October 2018, so an update in progress is timely.

- 2.7 The report presented here shows the results of the consultation and subsequent discussion between the authorities on proposed West Yorkshire & York policies for suitability of licence holders, based on the guidance developed by Institute of Licensing, Local Government Association, National Association of Licensing and Enforcement Officers and Lawyers for Local Government. The council responded to national consultation by the Institute for Licensing on the proposed suitability policy, and two questions in the recent Department for Transport (DfT) statutory guidance consultation also related to the suitability guidance. However, to date, no revisions to the national suitability guidance have been made, although licensing authorities have been requested to keep a record of cases where application of or variation from the suitability guidance has been criticised in court decisions. It is possible that the response by the DfT may provide some further information on suitability and the consultation responses, but the DfT are unlikely to suggest the suitability guidance be revised significantly.
- 2.8 This report proposes arrangements for implementation and review of the policy, with a number of revisions. If the respective policies can be approved and implemented in all six councils, it would mark significant progress towards adopting common minimum standards for taxi and private hire licensing in the region. The suitability policy would replace the council's previous convictions policy, and form the basis of a common framework for refusing and resisting licences, which could be used for the new LGA/NAFN database of refused and revoked licences.
- 2.9 The report also provides an update on the progress by the six councils on the other areas proposed for taxi and private hire licensing harmonisation.

3 Main issues

Response to suitability survey in Leeds

- 3.7 The council consulted on the proposed suitability policy, with no suggested changes to the policy. Respondents were invited to comment on each of the proposals for the length of time a licence would be refused or revoked.
- 3.8 The council received 250 responses to the survey. 227 responses were from licence holders, and 19 responses were from members of the public. The remaining responses were from other stakeholders, including driver's representatives and trade union, passenger groups, road safety, and West Yorkshire Combined Authority.

- 3.8 Respondents were asked for any additional comments, and to state their reasons why they didn't agree with the length of time a licence should be refused or revoked, with the options of 'too short' or 'too long'. Their comments are summarised and grouped in the table in **Appendix 1**, with a response on behalf of the council. Appendix 1 also includes responses to the same general or rhetorical questions or comments, which don't relate directly to suitability, in particular the increase in cross-border working in West Yorkshire.
- Overall, the responses indicate a high degree of agreement with the proposed length of time to refuse a licence, although some respondents stated that they had not read the suitability guidance before replying. The lowest score of agreement with the tariff is 66% for sex and indecency offences.
- 3.10 The suitability policy does not need to be changed significantly following the consultation. A large majority of respondents stated that they agreed with the suitability proposals to refuse licences for a stated period of time. Therefore, unless the feedback to the other authorities was significantly different, no major changes to the overall West Yorkshire & York suitability policies would be recommended as a result of the consultation.

Response to suitability survey in other authorities

- 3.11 A summary of the responses to the consultation in the five authorities carrying out the consultation is provided in **Appendix 2**. In total, 695 people responded to the consultation on suitability.
- 3.12 There was a marked difference between the survey results in Leeds and in the other authorities. Leeds was the only authority where a majority of respondents agreed with the tariffs proposed in the suitability policy. In three of the policy areas, a majority (i.e. three or more authorities) of the surveys had a majority of responses disagreeing with the tariffs:
 - Minor traffic or vehicle related offences (5 years);
 - Hackney carriage and private hire offences (7 years); and
 - Certificate of good conduct.
- In only one policy area, however, was there a majority of responses across the region disagreeing with the tariff:
 - Minor traffic or vehicle related offences (5 years).

Considerations about applicants and current licence holders' suitability

3.14 The authorities have shared their individual consultation results and reviewed the specific responses to the consultation. In addition, the authorities have considered a number of areas where the suitability policy may be revised, strengthened or clarified. These discussions have resulted

in the five authorities writing Suitability Policies with some relatively minor additions or variations from that developed nationally. The additions are marked in red for clarity in the Leeds (WY&Y) Suitability Policy attached at **Appendix 3**.

- Paragraphs 20 and 29 include cautions, warnings, reprimands, all forms of fixed penalty notices, restrictive type orders and any other relevant information must be reported to the Council in the format and timescales stated in the relevant policy. Authorities want to emphasise that failing to report a caution, conviction or other information cannot be regarded as merely an oversight, and will be taken very seriously.
- Paragraph 28 Any applicant who has resided outside the UK for any period longer than 6 (not 3) months within the preceding 3 years will be require to produce a certificate of good conduct dated in the last 3 months which details any convictions or cautions recorded against the individual. It is the applicant's responsibility to obtain this evidence at his cost. This will be in addition to the Enhanced DBS. Alternatively you may be required to produce a Statutory Declaration dated in the last 3 months.
- Paragraph 32 An applicant must hold a full DVLA driver's licence, have the right to remain and work in the UK and be a "fit and proper" person.
- Additions or changes to Table A:
 - Battery added to list of violence;
 - Minor traffic offences set at 3 years, not 5 years.
- 3.15 In their consideration, the authorities also took two main issues into account: first, the applicability of new national guidance or licensing authority policy to historical convictions and cautions, and second, the deliberately broad categories in the suitability guidance. They are discussed in turn.

Consideration of fit and proper person at renewal

- 3.16 The West Yorkshire and York officers noted that the licensing authority must not issue a licence until or unless it is satisfied that a person is fit and proper. The suitability policy explicitly states in paragraphs 5 and 15 that the suitability policy should be used as a guideline as to whether an individual is fit and proper both at the stage that they apply to be licensed as a taxi or private hire driver, and when they apply to renew an existing licence.
- 3.17 It is extremely likely that the application of the policy will be scrutinised and decisions appealed when historical convictions and cautions (and also other information such as allegations or complaints) are considered when considering whether an applicant who already holds a licence and is applying to renew that licence. The applicant may have no new information about them since their last application, but previous information, such as

common assault, which under the council's current conviction policy would carry a tariff of 3 years, would now be considered for 10 years after the caution or conviction.

3.18 The suitability policy gives decision makers scope to judge cases on their merits in such circumstances, and would give decision makers leeway to not apply the full tariff when reviewing historical information, as long as they were satisfied that appropriate remedies and rehabilitation had taken place, which would enable a licence holder to have their licence renewed. Of course, if reviewing the case, it was evident that the caution, conviction or other information had not been taken into account, the full tariff could be applied.

Broad categories of caution, conviction

- 3.19 The West Yorkshire and York officers from the noted that the national suitability policy deliberately sets very general categories for many offence types, notably for violence, which spans criminal damage or common assault to terrorism and arson, and recommends the same length of refusal, in this case 10 years. It is possible to understand the motivation behind the broad categories, so that the policy does not have to be updated each time a new crime is identified.
- 3.20 Yet, the broad categories provide significant leeway for a licensing decision maker to use their judgment and impose a shorter length of refusal for example, to an act of criminal damage, and an indefinite refusal for example, to an act of terrorism.
- 3.21 Officers in Leeds and other authorities have lobbied the authors of the statutory guidance to separate between extreme and less extreme violence, and set a lower tariff such as 5 years for criminal damage, harassment and assault, provided they are not compounded with other more violent incidents, see the table below. The views of committee members are invited on this subject.

Offences involving violence (including arson, riot, terrorism offences, grievous bodily harm, wounding, actual bodily harm) or connected with an offence of violence.	10 years
Offences involving violence (including harassment, battery, common assault & criminal damage) or connected with an offence of violence.	5 years

3.22 If approved, this new tariff would give officers in Leeds leeway to distinguish between applicants and existing licence holders who have arrests, cautions or convictions which would not carry a long custodial sentence (below 6 months). A refusal period of 5 years would still be a

longer period of refusal than the 3 years in the council's current conviction policy, and the officer making the decision would retain the ability to refuse a licence after 5 years if they were still not confident that the person was a fit and proper person.

West Yorkshire and York policy harmonisation

3.23 The suitability policy is one of the six improvement themes being progressed by the six WY&Y authorities. The table below provides an update on those themes. The recently developed and consulted statutory guidance will very likely shape the collaborative/regional aspect of licensing policy development.

	Progress and next steps
CCTV in vehicles	No WY&Y authorities have made CCTV in vehicles mandatory, although 9 authorities, including Rotherham, have done so, and there may be more revealed in the DfT annual survey. Rotherham has found some challenges with CCTV installation companies maintaining equipment in vehicles.
	Taxi and private hire trade is broadly supportive of CCTV – reduces insurance premiums, reduces bad behaviour, but does come at a cost. Leeds no longer has a local supplier who can fit and maintain CCTV which meet our standards, although received one application early in June 2019, which is being checked against new privacy/surveillance and GDPR guidance. Leeds Licensing committee working group/workshop being arranged for CCTV in vehicles.
	There are significant data protection and resourcing implications for authorities as data controllers under GDPR. Greater Manchester authorities sharing proposals for minimum standards, including voluntary CCTV late in June 2019.
	WY&Y looking to develop common, simple rules for voluntary CCTV in vehicles, and a common list of approved installers. Options appraisal being prepared for WY&Y Licensing chairs about pros and cons of mandatory CCTV in vehicles.
Convictions	Five WY&Y authorities developing very similar suitability policies.
policy	Bradford has adopted the national suitability guidance, and will consider whether to make changes to their policy detailed in 3.14 and 3.15 to align with WY&Y.
Vehicle specifications	WY&Y authorities have different conditions on the type of vehicles which would be licensed, age of vehicles, size of engine, fuel type or level of vehicle emissions, and on the scheme of vehicle inspection once a vehicle has been licenced.
	All WY&Y authorities currently have conditions on vehicle livery, to clearly indicate vehicles as taxis or private hire, although Wakefield does not require door livery. Some authorities allow vehicles to have livery for more than one private hire operator.
	Leeds is working towards a Clean Air Zone (CAZ), and will review conditions to encourage hybrid and LPG, provide exemptions from CAZ for wheelchair accessible vehicles and larger 8-9 seater vehicles. Other councils do not face these challenges, although Bradford are planning a CAZ in 2021.
	Significant differences remain, and the focus going forward could be on common minimum standards, such as which types of vehicles would be licensed. Leeds has specific public health priorities about electric, hybrid, LPG and other low emission vehicles which do not necessarily apply across the region.

	Progress and next steps
Driver training	WY&Y authorities converging on common driver training modular curriculum and method of assessment. Training will only differ for local geographical knowledge and local conditions. Other training will be the same and candidates will need to achieve the same pass mark. WY&Y likely to agree new driver training course content and method of assessment in August.
Information sharing between authorities	WY&Y authorities are sharing information about licence holders who have worked previously in other authorities but have been refused or revoked, once information sharing documents have been submitted. All WY&Y authorities are signing up to the NR3 database, which enables information sharing about any driver who has previously been refused or revoked.
Effective cross-border enforcement	All WY&Y authorities have revised their policies and conditions to allow authorised officers from WY&Y authorities to inspect vehicles and check drivers licensed in WY&Y authorities as they world do for vehicles and drivers licensed in their own district, although the enforcement capacity in the different authorities varies.
	WY&Y authorities have issued staff badges, ticket books, staff training to ensure clear and consistent approach across WY&Y. Some fine tuning required to ensure that processes are in place to un-suspend vehicles when suspended by neighbouring WY&Y authority, and training provided to new enforcement officers.
	Leeds enforcement officers currently work alongside W Yorkshire Police officers on weekend evenings. Around 10% of the vehicles inspected on street at weekends in Leeds are licensed in neighbouring districts. Around 20% of all of the 'out of town' vehicles or drivers inspected at weekends at Leeds have been found to have some area of risk or non-compliance.

4 Corporate Considerations

4.1 Consultation and Engagement

- 4.1.1 The council does not plan to consult again on these proposals. Following passing the proposed policy to the Executive for approval, the council will advertise the proposed changes on the council website, and to current licence holders and applicants.
- 4.1.2 The council plans to implement the revised policies from 1 August 2019, following discussion at July Licencing Committee.
- 4.1.4 The council proposes to implement the new suitability policy from 1 August 2019, and review the impact of the policy on the number and type of appeals against licensing decisions for the initial 12 months in West Yorkshire and York. It is also likely that other case law arising from appeals and requests for judicial reviews may have the effect of requiring the policy to be reviewed and amended.

4.2 Equality and Diversity / Cohesion and Integration

4.2.1 Equality and Cohesion Screening Assessments are carried out on the policies agreed at Licensing Committee and policy changes made under the scheme of sub delegation. An Equality Impact Assessment Screening report is attached.

4.3 Council policies and City Priorities

4.3.1 Taxi & Private Hire Licensing policies contribute to the following aims:

Best Council Plan

Towards being an Enterprising Council

Our Ambition and Approach

Our Ambition is for Leeds to be the best city and Leeds City Council to be the best council in the UK – fair, open and welcoming with an economy that is both prosperous and sustainable so all our communities are successful.

Our Approach is to adopt a new leadership style of civic enterprise, where the council becomes more enterprising, business and partners become more civic, and citizens become more actively engaged in the work of the city.

Our Best Council Outcomes

Make it easier for people to do business with us.

Our Best Council Objectives

Promoting sustainable and inclusive economic growth – Improving the economic wellbeing of local people and businesses. With a focus on:

- Helping people into jobs;
- Boosting the local economy; and
- Generating income for the council.

Ensuring high quality public services – improving quality, efficiency and involving people in shaping their city. With a focus on;

- Getting services right first time; and
- Improving customer satisfaction.
- 4.3.2 The Taxi & Private Hire Licensing policies contribute to priorities:
 - Reduce crime levels and their impact across Leeds;
 - Effectively tackle and reduce anti-social behaviour in communities;
 - Safeguarding children and adults at risk:

Leeds City Council has both a moral and legal obligation to ensure the duty of care for both children and adults at risk across all of its services. This cannot be achieved by any single service or agency. Safeguarding is ultimately the responsibility of all of us and depends on the everyday vigilance of staff who play a part in the lives of children or adults at risk.

4.4 Resources and value for money

- 4.4.1 The Taxi and Private Hire Licensing service is currently cost neutral to the council and by virtue of the Local Government (Miscellaneous Provisions)

 Act, 1976, raises its own revenue by setting fees to meet the cost of issuing and administering licences.
- 4.4.2 These arrangements mean that if proposals are associated with additional costs, they will be funded via licence fees and will not place additional pressure on the council's budget.
- 4.4.3 It is very likely that the new policy will increase the number of licensing decisions where the council will ask for additional information, and either impose additional conditions on a licence holder or will refuse a licence, in many cases, based on historical information. In turn, this is likely to increase the number of appeals against the refusal to grant or renew a licence. In the past three years, the council has refused to renew 38 licences, and had six appeals, all successful. Over the same period, the council has questioned around 100 licence holders about information arising on DBS checks.

4.5 Legal Implications, Access to Information and Call In

- 4.5.1 There are possible legal implications arising from this review, both concerning the key legislation for taxi and private hire licensing, which is Local Government (Miscellaneous Provisions) Act 1976.
- 4.5.3 The Local Government (Miscellaneous Provisions) Act 1976 section 51 b) refers to licence holders holding a valid full (i.e. not provisional) driving licence for 12 months or more.
- 4.5.4 The Local Government (Miscellaneous Provisions) Act 1976 section 61 refers to licensing decision to refuse to renew a licence on two grounds:
 - a) based either on **new** evidence or conviction involving dishonesty, indecency or violence, since the grant of the licence. (Emphasis added)
 - b) any other reasonable cause.
- 4.5.5 The council has secured legal advice on how the new policy should be applied at the stage where a current licence holder is applying to renew their licence, for example with an 'old' conviction or caution, where relevant remedial actions were put in place (such as drug test or additional training). The legal advice suggests that the new policy does give a licencing authority reasonable cause to review previous convictions and cautions, and that each case will be treated on its merits.

- 4.5.6 In some cases, the council may view those actions as having adequately addressed the risk posed by that licence holder with that conviction or caution, and no new period of refusal would be imposed.
- 4.5.7 In other cases, the new tariffs in the suitability policy could lead to the refusal to renew a licence not based on behaviours since the previous grant of the licence, but based on the new suitability policy requiring the council to view previous behaviour, evidence or conviction in a new light.

4.6 Risk Management

- 4.6.1 The October 2018 report to Licensing Committee identified no major risks and mitigating actions. The aim of the new policies is to reduce the risk posed by licence holders to the travelling public, and to increase the confidence of the public that their taxi and private hire drivers can be trusted.
- 4.6.2 The review of the suitability policy has raised a new risk of a significant increase in the number of appeals made against the council's licensing decisions, and the increase in resulting casework. The proposed 12 month review of the suitability policy will give each council the ability to review the effectiveness of the new policy and impact on decisions and appeals.

5 Conclusions

- The report has addressed the results of consultations on two areas, the suitability of people to hold a licence, and the progress of the harmonisation project in West Yorkshire and York. The report has summarised the findings and recommendations of the consultation, and proposed revised policy.
- 5.2 The report has provided details of discussion where the council's suitability polices and conditions should be revised at the same time as the five other authorities in West Yorkshire and City of York.
- 5.3 The report proposes arrangements for implementation and review of the suitability policies. If the respective policies can be approved and implemented in all six councils, it would mark significant progress towards adopting common minimum standards for taxi and private hire licensing in the region. The suitability policy would replace the council's current convictions policy, and form the basis of a common framework for refusing and resisting licences, which could be used for the new LGA/NAFN database of refused and revoked licences.

6 Recommendations

- 6.1 That committee members note the purpose and content of the information in this report.
- 6.2 That committee members consider the summary of the responses to the consultations, the proposed policy, and the discussion points raised in the report, and note that there may be further guidance being developed as a result of the national consultation on statutory guidance, which included the table of suitability licensing decisions
- 6.3 That committee members pay particular attention to the option to separate the extreme violence examples from less extreme violence, with a lower tariff of 5 years, not 10 years.
- That committee members approve the policy to be passed to the Executive Member for Licensing of the new policy on determining the suitability of applicants and licencees as drivers in taxi and private hire licensing, and that this policy take effect from 1 August 2019.
- That the Taxi and Private Hire licensing Manager be authorised to make any further minor changes necessary to the policy, to align the policy as closely as possible with the other West Yorkshire & York Authorities and meet the preferences of committee members, officers and stakeholders in Leeds.

Appendix 1 Summary of responses to consultation

Appendix 2 Summary of West Yorkshire & York Responses

Appendix 3 Leeds (WY&Y) Suitability Policy

Appendix 1 Summary of responses to consultation on suitability and driver training

Response/Objection	Leeds City Council response
Clean Air Zone will harm taxi and private hire drivers' incomes (general comments)	We appreciate that drivers and vehicle owners and proprietors may have concerns about the council's plans for a Clean Air Zone for the city.
meomes (general comments)	All Clean Air Zone options provided by central government have implications for taxi and private hire vehicles. The council is has finalised plans for the Clean Air Zone for Leeds, and has secured funding from the Clean Air Fund to assist Leeds licence holders to make the transition from high polluting to ultra low emission vehicles.
	The council has also confirmed plans from central government for a central database of taxi and private hire vehicles so that non-compliant out of district private hire and taxi vehicles will be required to pay the Clean Air Zone charge.
	The proposed Clean Air Zone charge of £12.50 per day will be ringfenced to fund work to improve air quality in Leeds, it will not be used to fund taxi and private hire licensing.
Out of town vehicles should	We know that Leeds licensed drivers don't like the increase in drivers being
be stopped coming into Leeds (general comments)	licensed in other districts and working regularly in Leeds.
Lecus (Benefal comments)	Our investigation of journey records show that many customers choose out of district providers for their journey into Leeds and their journey home. Leeds has a vibrant night time economy, three large universities and a regional airport, all serving the wider city region. We do not want, nor do we have powers, to 'stop' all out of district drivers coming into Leeds.
	Our focus is on keeping the travelling public safe, so we have taken a number of steps to put out of district vehicles under scrutiny. These steps include maintaining a database of out of town vehicles observed in Leeds on a regular basis, checking journey records with operators licensed in other authorities, including out of town vehicles in 'plying for hire' operations, and joint working with West Yorkshire Police.
	We are also starting to conduct cross border enforcement with the four other West Yorkshire authorities and City of York, so that enforcement officers from any of the authorities can inspect vehicles licensed by any of the authorities.
	However, recent case law has found that out of town working is very difficult to regulate. Licensing authorities (such as Knowsley MDC) which have tried to impose 'intended use' conditions on their licence holders have had this decision appealed and lost in High Court. Licensing authorities (such as Reading BC) which have tried to prosecute (without a test purchase) out of town drivers for plying for hire have also lost at appeal.
	Focusing on passenger safety, we are working very closely with neighbouring authorities and large private hire operators to ensure that drivers are not able to

Response/Objection	Leeds City Council response
	have their licence revoked or refused in Leeds, and get a licence in a neighbouring authority, in order to work in Leeds. We will conduct a review of the council's operator policies and conditions, and it is possible that the review may include additional requirements and conditions for operators using apps, with vehicles and drivers who are routinely operating outside of their licensed district.
Leeds' licensing conditions are higher than other councils (e.g. tinted windows, vehicles first licensed not older than 5 years, impact on costs) (General comments)	It is a matter for each licensing authority how they put licensing conditions in place. We recognise that where there is a significant difference in licensing fees, there is an incentive for some licence holders to move to be licensed by a lower fee authority. We also know that some licence holders are motivated to be licensed in authorities with licensing conditions which are easier to meet. The licensing conditions which Leeds City Council has in place to there to maintain passenger safety and promote public confidence in the local taxi and private hire trade. The conditions which Leeds City Council has put in place which are higher than some other authorities, such as not permitting window tints in the rear of licensed vehicles which let less than 70% of light through. Leeds City Council maintains a high level of safety for the travelling public when using taxi and private hire vehicles. To support this, it is considered necessary to ensure that the Police, Council Enforcement Officers and members of the public can always see into a licensed vehicle in outside lighting conditions. This discourages crime from being carried out inside the licensed vehicle and it has also been established that women, vulnerable people and disability groups feel safer when they can easily see out of, and others can see into, the vehicle. It is now the current practice for different manufacturers to use glass with varying degrees of tint as standard. However, irrespective of the type of glass fitted by the manufacturer, Leeds City Council will not licence a vehicle unless the glass has a minimum light transmission which enables clear vision both into and from the vehicle at all times. In accordance with national regulations, the windscreen shall have a minimum light transmission value of 75% and the near and offside drivers windows 70%. The other windows must also have a minimum light transmission 70%. Leeds City Council has been in contact with vehicle manufacturers to check which vehicles are manufactured with levels of t

Response/Objection	Leeds City Council response
Drivers should not have to meet suitability standards (Suitability)	We cannot agree that taxi and private hire drivers don't need to meet any test of their being safe to work (known as 'fit and proper'). We don't agree that a driving licence is sufficient evidence of someone's suitability to work as a taxi or private hire driver. Working as a professional taxi or private hire driver is a notifiable occupation in
	terms of the trust which is placed in drivers, and their likelihood of coming into contact with vulnerable, elderly or people at risk of harm. Those people are entitled to expect high standards of their drivers.
	The reason for the authorities in West Yorkshire and York consulting at the same time is to set some common minimum standards for licence holder suitability across the region. This should give the public confidence that drivers have met a common minimum standard, irrespective of where in the region they have been licensed, and that a driver who has been found unsuitable in one district will be able to get a licence in another district because a different test is used of their suitability.
Once you have served your punishment you should be able to work (Suitability)	We agree that a conviction or caution doesn't necessarily means that a person can never be regarded as fit and proper to work as a taxi or private hire drivers. It will depend on the individual circumstances.
You are innocent until proven guilty (Suitability If the police drop a	However, working as a professional taxi or private hire driver is a notifiable occupation in terms of the trust which is placed in drivers, and their likelihood of coming into contact with vulnerable, elderly or people at risk of harm. Those people are entitled to expect high standards of their drivers.
prosecution against a driver, you should get your licence back (Suitability)	The proposed suitability policy would set down in broad terms the length of time a licence would be refused, depending on the type of conviction or caution. The policy is based on national review of individual councils' convictions policies.
	Criminal law uses a high burden of proof, which means for example, an allegation of inappropriate behaviour may not be prosecuted because of a lack of a witness. Licensing authorities can use a lower level of proof, which may mean that a case, which isn't seen as suitable for prosecution by the police and crown prosecution service, can be used to make a licensing decision on the basis of probability.
The length of time a licence would be refused is too long for motoring points (Suitability)	We cannot agree that taxi and private hire drivers don't need to meet any test of their being safe to work (known as 'fit and proper'). We don't agree that a lower standard should be applied to people who drive for their living. The public have a right to expect that taxi and private hire drivers can drive professionally and

a right to expect that taxi and private hire drivers can drive professionally and safely for long hours and many thousands of miles without incurring minor traffic offences and points.

Working as a professional taxi or private hire driver is a notifiable occupation in terms of the trust which is placed in drivers, and their likelihood of coming into contact with vulnerable, elderly or people at risk of harm. Those people are

Response/Objection	Leeds City Council response
You should be able to drive unless you are disqualified (Suitability)	entitled to expect high standards of their drivers. We do recognise however, that the proposed refusal of a taxi or private hire licence for 5 years for minor traffic offences or driving with a mobile phone is a very long length of refusal, especially for drivers who may have attended speed awareness course or other remedial training as part of measures to ensure they satisfy their authority they remain fit and proper. The West Yorkshire and York authorities have proposed that this tariff be 3 years, which would also allow all endorsements to be viewed by licensing authority, for applicants and current licence holders renewing an existing licence.
The length of time a licence would be refused is too long for violence (Suitability) The length of time a licence would be refused is too long for drugs (Suitability) The length of time a licence would be refused is too long for sexual offences (Suitability) The length of time a licence would be refused is too long for sexual offences (Suitability) What are you going to do to keep drivers safe from violent passengers? (Suitability)	We cannot agree that taxi and private hire drivers don't need to meet any test of their being safe to work (known as 'fit and proper'). We don't agree that a conviction or caution for violence, drug taking or supply, or sexual offences should be taken lightly when considering someone's suitability to work as a taxi or private hire driver. We recognise that taxi and private hire drivers come into contact with people who are sometimes violent or aggressive. We encourage all drivers to report violent passengers to the police, and we are looking to develop a new approach to encourage CCTV in vehicles, which should discourage violent behaviour against both drivers and passengers. However, working as a professional taxi or private hire driver is a notifiable occupation in terms of the trust which is placed in drivers, and their likelihood of coming into contact with vulnerable, elderly or people at risk of harm. Those people are entitled to expect high standards of their drivers. We do recognise that the categories used in the guidance are very broad, and that while all acts of violence are serious, terrorism should not necessarily be treated the same as assault. Each case will be judged on its merits, and if the officer determines, a shorter or longer tariff may be used. The fact that an offence was not committed when the applicant was driving a
The length of time a licence would be refused is too shortfor drugs (Suitability) The length of time a licence would be refused is too short for sexual offences (Suitability)	taxi or when passengers were aboard is irrelevant. Speeding, drink driving and bald tyres are all dangerous, irrespective of the situation. Violence is always serious. A person who has a propensity to violence has that potential in any situation. Sexual offences are always serious. A person who has in the past abused their position (whatever that may have been) to assault another sexually has demonstrated completely unacceptable standards of behaviour.
