Work base:	Merrion House, Merrion Way, Leeds
Salary:	
Key Relationships	The Council Cabinet/Portfolio holder Elected Members Corporate Leadership Team Senior Management Team Local NHS bodies including Clinical Commissioning Groups Public Health England Health and Wellbeing Board Local Resilience Forum/Local Health Resilience Partnership NHS England The public and the press

Job Summary

The Director of Public Health is the system leader for improving the health and wellbeing of residents, reducing inequalities in health outcomes and protecting local communities from public health hazards (infectious diseases and environmental threats). As such, the Director of Public Health is a statutory chief officer of the authority and the principal adviser on all health matters to elected members, officers and partners, with a leadership role spanning health improvement, health protection and healthcare public health. The Director of Public Health will have direct access to the Chief Executive and elected members for the exercise of the local authority's public health functions. Day to day line management accountability will be to the Director of Adults & Health but the Director of Public Health will work corporately across all functions of the Council to support the delivery of his/her responsibilities.

Section 73A(1) of the NHS Act 2006, inserted by section 30 of the Health and Social Care Act 2012, gives the Director of Public Health responsibility for:

- all of their local authority's duties to improve public health
- any of the Secretary of State's public health protection or health improvement functions that s/he delegates to local authorities, either by arrangement or under regulations – these include services mandated by regulations made under section 6C of the 2006 Act, inserted by section 18 of the 2012 Act
- exercising their local authority's functions in planning for, and responding to, emergencies that present a risk to public health
- their local authority's role in co-operating with the police, the probation service and the prison service to assess the risks posed by violent or sexual offenders

- such other public health functions as the Secretary of State specifies in regulations
- producing an independent annual report on the health of local communities

In order to deliver their responsibilities on behalf of the residents of Leeds the DPH will need to be a visible system leader in the health and wellbeing partnership arrangements. The DPH will be expected to use all the resources at their disposal to ensure that the local public health system is able to tackle the full range of determinants of health affecting communities in Leeds. Working with local communities, he/she should be able to inspire development of innovative solutions that support improvements in health and wellbeing and reduction in health inequalities whilst at the same time maintaining the confidence of Councillors and government.

Description of the LA and the Public Health Department

Public Health, along with Adult Social Care and the Health Partnerships Team is part of the Adults and Health Directorate within Leeds City Council. The Adults & Health Directorate in turn sits alongside the Directorate of Children's & Families; Resources & Housing; Communities & Environment; City Development.

There are around 95 staff, including those in Public Health Resource Centre and the Public Health Intelligence team – which is integrated with the Leeds CCG Intelligence team. There are four Consultants in Public Health and Leeds is a public health training base.

Leeds City Council has a vision to be the best city in the UK; one that is compassionate and caring with a strong economy, which tackles poverty and reduces inequalities. "Public Health plays its part in delivering that vision through the two overlapping key partnership strategies for the city – the Health & Well Being Strategy and the Inclusive Growth Strategy. More recently, a third on climate change is being developed. Public Health is well represented in partnership arrangements. There are close working relationships within the Council and also with the NHS. The Director of Public Health is a member of the governing body of the Leeds CCG and public health staff support the commissioning roles of the CCG and with the new development of Local Care Partnerships/Primary Care Networks.

Public Health funded staff work within Leeds Teaching Hospitals NHS Trust and Leeds and York Partnership NHS Foundation Trust. There is a strong commitment by Leeds City Council and the NHS in Leeds to engage and influence the West Yorkshire & Harrogate Integrated Care System. Public Health has had a leading role in developing the prevention, health inequalities, wider determinants, population health management elements of the West Yorkshire & Harrogate ICS Five Year Strategy.

Job purpose and key responsibilities

The fundamental purpose of the postholder is to provide the leadership to drive improvements in the health and wellbeing of the residents of Leeds, to reduce inequalities in health outcomes and working in collaboration with PHE to protect local communities from threats to their health through infectious diseases, environmental and other public health hazards. In delivering the key responsibilities described below, the postholder is expected to demonstrate a high level of expertise in the Faculty of Public Health Competencies (Appendix A) and the person specifications (Appendix B).

- a) Support the Chief Executive and Councillors in developing and delivering the Council's strategic agenda
- b) Be the chief officer and principal adviser on public health to the Council, local communities and local partners
- c) Operate strategically as an attendee of the executive board and across the Council influencing policy and practice.
- d) To deliver commission, and or deliver services which are effective, value for money and meet quality standards.

- e) To act as a leader across the local system of public services, influencing change and enabling a culture of continuous improvement in health and wellbeing, innovation and evaluation.
- f) Utilise the public health resources imaginatively and cost effectively across all domains of public health in order to improve health and wellbeing of local communities and reduce inequalities in health outcomes.
- g) Accountable for both the shaping and delivery of the Health and Wellbeing agenda taking account of the national agenda and benchmarking (using the national outcomes frameworks; public health, NHS and social care).
- h) Deliver an independent annual report on the health and wellbeing of local communities for publication by the Leeds City Council, to stimulate debate and/or action by the Council and partners.

The person specifications for the post are set out in appendix B. In delivering the responsibilities outlined above, the postholder and his/her team will undertake the following tasks:

1. Strategic Leadership

- Delivery of a system to support surveillance, monitoring and evaluation of health and wellbeing and inequalities in health outcomes of local communities (including supporting an easily accessible Joint Strategic Needs Assessment System)
- Ensure all activity undertaken by the Council takes account of both, the need to reduce inequalities as well as the requirements of the Equality and Diversity Act.
- To ensure scientific principles are applied to assessing need, exploring interventions and assessing progress of the Council's strategic agenda.
- Ensure as a core member of the Health and Wellbeing Board and in partnership with the wider Leeds City Council, partners and the public, the development of plans to enable local communities become healthy, sustainable and cohesive
- Ensure a programme of action (both within and out with the Council) to impact on the wider determinants of health that will promote improvements in health and wellbeing of local communities and reduction in health inequalities.
- Provide assurance that the health protection system for local communities is fit for purpose
- To work closely with Directors responsible for people (children, vulnerable communities and older people) to ensure to develop, implement and maintain a "fit for purpose" integrated strategy which meets the needs of local communities and is cogent with the national approach.
- Collaborate across organisational boundaries to ensure communities in Leeds benefit from population health and care programmes (e.g. via West Yorkshire & Harrogate Integrated Care System)

2. Directorate Specific Accountabilities

- To be an advocate for improving health and wellbeing and reducing health inequalities
- Exercise the statutory responsibilities including the delivery of the mandated services
- To advise Leeds City Council on its statutory and professional public health obligations.
- Work with the PHE Centre and NHS England to ensure local communities are protected from infectious disease threats (including food and water borne disease, pandemics, etc) and environmental hazards
- Ensure the development and delivery of a credible plan to improve health and wellbeing of communities in Leeds City Council and reduce health inequalities.
- Ensure that the Council has implemented its EPRR responsibilities and through Co-chairing/membership of the Local Health Resilience Partnership, that partner organisations (PHE, NHS England and the CCGs) have delivered their EPRR responsibilities.
- Work in partnership with Leeds CCG and Directors of Social care to take responsibility for Population Health and Care; including oversight and promoting population coverage of immunisation and screening programmes
- Provide public health advice (the core offer) to support the commissioning of appropriate, effective (based on evidence), and equitable health services.
- Support the Health and Wellbeing Board to deliver its statutory duty to promote integration for the benefit of local communities

- Collaborate across local authority boundaries to ensure residents of Leeds benefit from population health and care programmes.

3. Resource Management

- To be accountable for the budget including reporting on the use of the public health ring fenced grant.
- To manage Council resources (People, property, information and finance) imaginatively and efficiently.
- Set, monitor and control budgets and authorise expenditure in accordance with the Council's Constitution and Scheme of Delegation.
- Manage public health staff and ensure that they are able to influence in such a way as to ensure health and wellbeing in its fullest sense is central to the <name of place>.

4. Commissioning

- Ensure services for improving health and wellbeing of local communities are commissioned within the Council policy for procurement and monitoring system and are responsive to the needs of the communities in Leeds and over time.
- To set the framework for standards for commissioning and delivery; including the promotion of innovative approaches and appropriate risk management systems which are responsive to performance challenges.
- To ensure scientific principles of evaluation underpin all commissioning and delivery, of health and wellbeing services.

5. Advocacy

- Develop a constructive relationship with the media and the public, within the context of the Council Communications policy.
- To use the Faculty of Public Health, the LGA, the ADsPH, PHE and other channels to advocate for the public's health.

Management arrangements

The Director of Public Health will be professionally accountable to the Council (and Secretary of State for Health through Public Health England) and managerially accountable to the Director of Adults and Health and Chief Executive of the Local Authority. An initial job plan will be agreed with the successful candidate and reviewed annually.

The Director of Public Health will:

1. Manage approximately 65 staff (including trainees) and commissioning arrangements.
2. Manage budgets of approximately £43m per annum. In addition there will be involvement with larger partner budgets.
3. Be expected to take part in on call arrangements for communicable disease control/health protection as appropriate depending on local arrangements
4. Ensure appropriate management and support for Specialty Registrars (in Public Health)

Professional obligations

Professional responsibilities will be reflected in the job plan. The Director of Public Health will be expected to:

1. Participate in the organisation's staff and professional appraisal scheme and ensure participation of all staff members.
2. Ensure quality improvement (and clinical governance) programmes are an integral component of the public health approach in the Council.
3. Contribute actively to the training programme for Foundation Year Doctors/Specialty Registrars in Public Health as appropriate, and to the training of practitioners and primary care professionals within the locality.
4. Pursue a programme of CPD, in accordance with Faculty of Public Health requirements, or other recognised body, and undertake revalidation or other measures required to remain on the GMC/GDC Specialist Register with a license to practice or the UK Public Health (Specialist) Register or other specialist register as appropriate.
5. Practise in accordance with all relevant sections of the General Medical Council's Good Medical Practice (if medically qualified).
6. Agree any external professional roles and the time required to deliver those roles with the Council.

Appendix A

Faculty of Public Health: Competencies expected of all public health consultants/ specialists

All consultants irrespective of their background are expected to be proficient in the competencies set out below.

- I. Use of public health intelligence to survey and assess a population's health and wellbeing**
To be able to synthesise data into information about the surveillance or assessment of a population's health and wellbeing from multiple sources that can be communicated clearly and inform action planning to improve population health outcomes.
- II. Assessing the evidence of effectiveness of interventions, programmes and services intended to improve the health or wellbeing of individuals or populations**
To be able to use a range of resources to generate and communicate appropriately evidenced and informed recommendations for improving population health across operational and strategic health and care settings.
- III. Policy and strategy development and implementation**
To influence and contribute to the development of policy and lead the development and implementation of a strategy.
- IV. Strategic leadership and collaborative working for health**
To use a range of effective strategic leadership, organisational and management skills, in a variety of complex public health situations and contexts, dealing effectively with uncertainty and the unexpected to achieve public health goals.
- V. Health Improvement, Determinants of Health, and Health Communication**
To influence and act on the broad determinants and behaviours influencing health at a system, community and individual level.
- VI. Health Protection**
To identify, assess and communicate risks associated with hazards relevant to health protection, and to lead and co-ordinate the appropriate public health response.
- VII. Health and Care Public Health**
To be able to improve the efficiency, effectiveness, safety, reliability, responsiveness and equity of health and care services through applying insights from multiple sources including formal research, health surveillance, needs analysis, service monitoring and evaluation.
- VIII. Academic public health**
To add an academic perspective to all public health work undertaken. Specifically to be able to critically appraise evidence to inform policy and practice, identify evidence gaps with strategies to address these gaps, undertake research activities of a standard that is publishable in peer-reviewed journals, and demonstrate competence in teaching and learning across all areas of public health practice.

IX. Professional, personal and ethical development

To be able to shape, pursue actively and evaluate your own personal and professional development, using insight into your own behaviours and attitudes and their impact to modify behaviour and to practice within the framework of the GMC's Good Medical Practice (as used for appraisal and revalidation for consultants in public health) and the UKPHR's Code of Conduct.

X. Integration and application for consultant practice

To be able to demonstrate the consistent use of sound judgment to select from a range of advanced public health expertise and skills, and to use them effectively, working at senior organisational levels, to deliver improved population health in complex and unpredictable environments.

The DPH as a public health leader is expected to have both the technical expertise as well as the ability to use those techniques to both, lead and support the development of complex solutions to improve the health and wellbeing of local communities. In addition, they are expected to have skills and the attitudes to be able to present the results of applying their technical expertise so that they are understandable and stimulate actions by a range of individuals and organisations.

Appendix B

PERSON SPECIFICATION DIRECTOR OF PUBLIC HEALTH Leeds City Council

Competencies and other requirements

Behaviours	Recruitment and selection
Leadership Establishing and promoting a clear public health vision which is coherent with the business strategy and the political vision for Leeds City Council and consistent with Government policy and takes account of social and economic trends. This is about role modelling through their own actions the types of behaviours expected of others in creating a high performing public health culture. • Developing an effective PH team with appropriate skill mix to enable the Authority to deliver its full range of PH responsibilities • Developing effective relationships with elected members to ensure a coherent PH vision and operational plan • Work with fellow directors to enable/ensure public health perspective/principles underpin all aspects of LA delivery • Work with communities and media to ensure needs of local communities are made explicit and addressed by the H&WB • Deliver the independent report of the DPH in such a way as to compel all members of the H&WB to take action	CV and Interview
Community and population focus It means working together to a common agenda and objectives with a shared purpose and common values, always looking for ways to improve access to services by communities and individuals. This is seen by: • Actively seeking to understand the communities that are served and promoting and demonstrating an active commitment to meet their needs • Setting new standards for innovation in commissioning and delivery of services that anticipate and exceed expectations • Engaging with a wide range of stakeholders and partners to gather and evaluate information and make collaborative judgements and decisions • Making timely and where needed, difficult decisions for the benefit of the people of	Application form Interview
Results Focus Co-development of a model of health with local stakeholders (including local communities) and the metrics to support; taking account of Public Health Outcomes Framework, the NHS Outcomes Framework and the Social Care Outcomes Framework. This is seen by: • Acknowledging and working with ambiguity and complexity, making significant decisions where no precedents exist • Ensuring a best practice performance culture is developed and sustained	Interview

• Setting, communicating and monitoring stretching organisational objectives and objectives • Pro-actively identifying corporate, directorate and service risks, and ensuring action is taken to mitigate them • Formulating risk management plans and creating a positive health and safety culture	
Improvement and Change Developing and sustaining a culture of innovation and creativity underpinned by evaluation, where employees are engaged and have the desire to do things better, more efficiently and effectively to improve performance. This is seen by: • Taking risks and moving into uncharted territory while taking accountability for results and failures • Welcoming the inevitable mistakes as part of the creative process • Suggesting the unthinkable to stimulate alternate ways of thinking • Focusing team performance on the achievement of outcomes that will maximise the resources available • Finding new ways of securing or deploying significant amounts of financial resource to meet new objectives • Advocating and role modelling the use of evaluation techniques to support innovation	Interview
People Development Knowing and managing the strategic talent requirements for the organisation. It is about promoting and encouraging a culture where people focus on developing themselves and others to deliver improvement while developing careers. This is seen by: • Holding direct reports accountable for people development generally and specifically for releasing high performers for personal development • Articulating the many long-term benefits of talent management and developing the talent pools required for succession • Ensuring comprehensive workforce plans are in place	Application form Interview
Functional competencies • Demonstrates detailed knowledge of methods of developing clinical quality assurance, quality improvement and evidence based clinical and/or public health practice. • Full and high level of understanding of epidemiology and statistics, public health practice, health promotion, health economics and health care evaluation. Develops service practices and ensures appropriate application. Provides advice on the more complex instances	Application form Interview
• Detailed knowledge and experience in driving and assisting in the management of change in a variety of settings, proactively seeking opportunities to create and implement improved service effectiveness	Application form Interview
• Detailed knowledge of personnel management. Carries out effective performance management of staff and demonstrates understanding of policies related to pay, capability, disciplinary matters and grievances. Plans department activities and use of staff resources effectively.	Application form Interview

Participates in workforce planning and training needs assessments	
Demonstrates knowledge of project management tools and techniques. Sufficient skill to develop and implement large scale projects, utilising and leading multi-skilled project teams.	Application form
Qualifications - Inclusion in the GMC Full and Specialist Register with a license to practice/GDC Specialist List (or be eligible for registration within six months of interview) or - Inclusion in the UK Public Health Register (UKPHR) for Public Health Specialists (or be eligible for registration within six months of interview) <i>If included in the GMC Specialist Register/GDC Specialist List in a specialty other than public health medicine/dental public health, candidates must have equivalent training and/or appropriate experience of public health practice</i> - Public health specialty registrar applicants who are not yet on the GMC Specialist Register/GDC Specialist List in dental public health/UKPHR must provide verifiable signed documentary evidence that they are within 6 months of gaining entry at the date of interview; all other applicants must provide verifiable signed documentary evidence that they have applied for inclusion in the GMC/GDC/UKPHR specialist registers - If an applicant is UK trained in Public Health, they must ALSO be a holder of a Certificate of Completion of Training (CCT), or be within six months of award of CCT by date of interview - If an applicant is non-UK trained, they will be required to show evidence of equivalence to the UK CCT - MFPH by examination, by exemption or by assessment	Recruitment and selection Application form
Must meet minimum CPD requirements (i.e. be up to date) in accordance with the Faculty of Public Health requirements or other recognised body	Application form
